

## BIG BALLZ

# A COMPETITION BASED WEB3 GAME

Introducing Big Ballz (BBB), our second collective based game, similar to AAA gameplay, but with some twists. BBB is our first game to test a free-2-play model, affiliate system, and incentivized tournaments. Furthermore, it's an explorative game to enter the mobile market and prepare for the adoption of more complex titles.

Gaming in web3 is all about bringing communities together to play, engage and win! BBB is the first web3 mobile experience on Ajuna Network and first mobile NFT crafting game on Polkadot. Here is how we can kick things off for you and your friends.

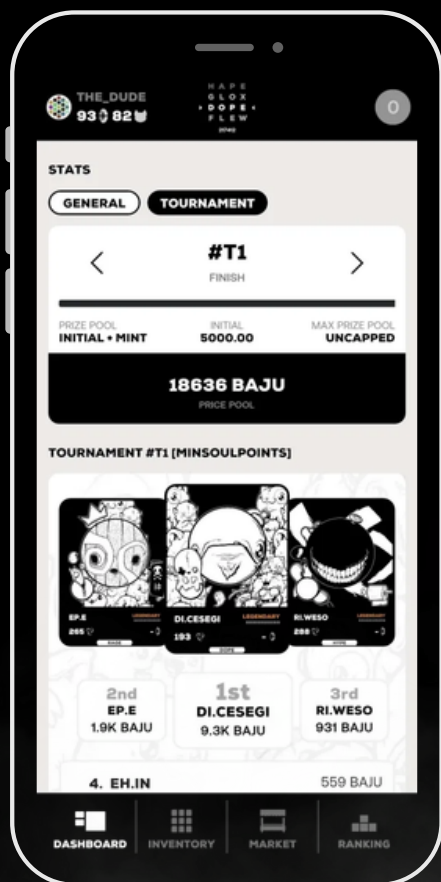

# TOURNAMENTS

There will be regular tournaments between 2–7 days long, with certain requirements, like create the lowest SP legendary with hype skill. Up to 10 places will be rewarded from the token pot that is set by the initiator, plus a percentage of minting fees. There will also be a Golden Duck prize, which is pure luck, the person who mints the Ball with the lowest ID will win. So people who are not the most skilled, still have a chance to be rewarded.

**There will also be additional tournament rewards for top performers, like USDT, high value NFTs and more! These rewards will be announced weekly before the tournament begins!**

## TOURNAMENT RULES

- The tournaments will have a starting and ending block
- Tournaments have a claim period after the tournament ends. During the claim period, winners can claim their rewards
- Unclaimed rewards will stay in the Tournament Treasury
- Tournaments have a token pot set by the initiator, plus a percentage of minting fees
- Up to 10 players will be rewarded, plus the Golden Duck
- Each tournament will have a SoulPoint objective. For example, the lowest SP Legendary ballz will be ranked first
- The leading card + all 4 cards in the final forge from Rare to Legendary, must be marked with “T” (minted in tournament)
- The Ballz are only ranked when it forges to its final state from Rare to Legendary with the required cards mentioned above

## NEW GAMEPLAY RULES

- Matching: To accumulate SoulPoints (SP) into the leading Ball, there must be at least one matching Ball in the forge. If no matching Ballz are present, the cards will be sacrificed, and SP increases will not occur.
- SP Boosting: Players can no longer forge a higher tier/rarity Ball into a lower tier/rarity Ball. Any attempt to do so will result in an unsuccessful forge.

## BONUS BBB REWARDS

Legendary BBB Leaderboard: Starting December, Ajuna will reward the top 100 players on a weekly bases!

Eligibility:

- Hold at least 25 Legendary Ballz, to be ranked
- The ranking is ordered by Amount of Legendaries, and Total Amount of Soul points.
- The top 100 Accounts get 10% of the Treasury each week
- Payout every 100'000 block

# CLAIMING REWARDS

## TIMELINE

Tournaments have a claim period after the tournament ends. During the claim period, winners can claim their rewards.

## CLAIMING AJUN

You will be able to claim your AJUN on the mobile app or bbb website interface, make sure you click “claim” before the claiming period ends. You can also always claim through Polkadot JS.

## CLAIMING NFTS

If you are a successful NFT winner, you will need to head to our AirLyft page to sign/prove that you are the address holder of the winning Ball, and then provide your ETH address to us.

The screenshot shows the Polkadot.js interface for submitting an extrinsic. The 'Submission' tab is active. The 'awesomeAvatars' dropdown is selected, and the function 'claimTournamentRewardFor(seasonId, avatarId)' is chosen. The 'seasonId' is set to 'u16 (SeasonId)' with a value of '1'. The 'avatarId' is set to 'H256 (AvatarIdOf)' with a long hexadecimal value. A blue arrow points to the 'hash a file' toggle, which is currently off. The 'encoding details' section shows 'callindex: 3320', 'seasonid: 0100', and 'avatarid' followed by a long hexadecimal string. The 'encoded call data' and 'encoded call hash' are also displayed. At the bottom, there are buttons for 'Submit Unsigned' and 'Submit Transaction'.

The screenshot shows the Ajuna Network website interface. The 'Tournament 1 NFT Winner' section is active, showing a 'Live' status and a deadline of 'Oct 23rd 24, 9:29 am - Never Ends'. The 'Total cFuel Scored' is 0. There are two buttons: 'Confirm Your Winning Address' and 'Enter EVM wallet address', both with '1XP' and '1cFuel' rewards. A note on the right states: 'Note: This campaign doesn't have any giveaways, although you can earn XP and cFuel to improve your community ranking. Additionally, you might have the opportunity to swap cFuel for various rewards.' The top navigation bar includes 'Explore', 'Communities', 'Campaigns', and 'Polkadot'.

# GAMEPLAY STEPS

## STEP #1

### MINT BALLZ

Head over to the minting page where you can mint packs of 1, 3 or 6 Ballz. For the most cost effective option, choose 6.

## STEP #2

### FORGE YOUR BALLZ

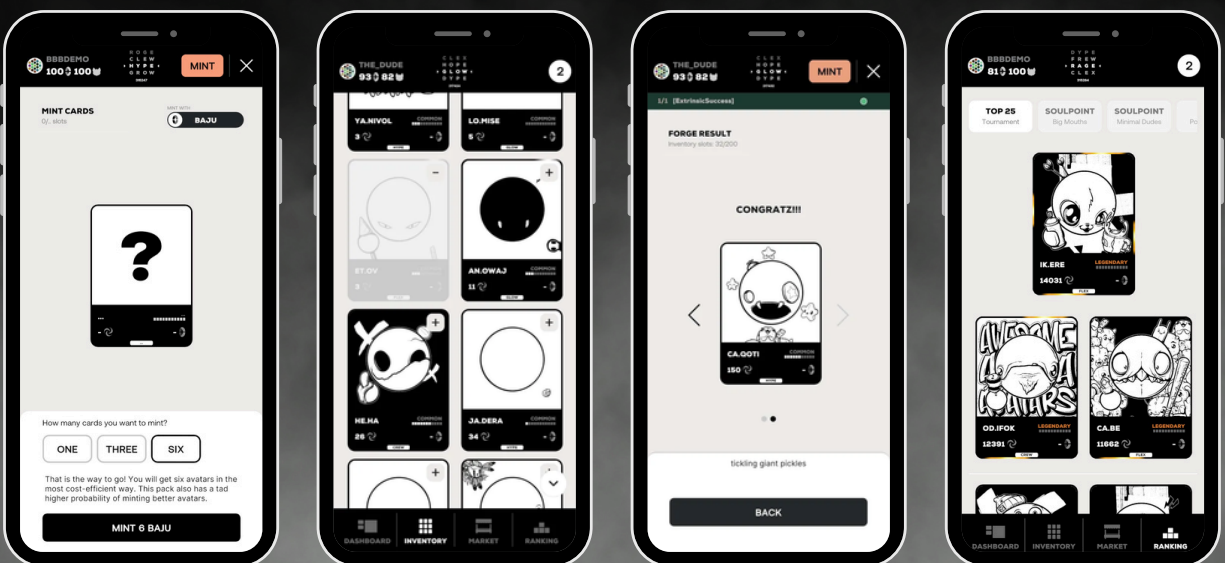

Here are a few simple tips for a successful forge:

- The "skill" of the Ballz you are forging, (must match the skill clock on the top of the screen).
- For common Ballz, it is best practice to start with one which has 3 or 4 bars progressed already.
- For the best forging odds, add 4 matching Ballz. If they are matching, they will have a glowing border around them.
- Complete the forge before the skill clock changes.

## STEP #3

### LEVEL UP

You will forge your Ballz from Common to Rare to Legendary, Rare Ballz will not match with Common and vice versa.

# PLAYER FEEDBACK FROM OUR CRAFTING GAMES

*"If you like gaming then you should definitely try this one, super addictive!"*

*"Really addictive game and amazing project! Totally worth joining!"*

*"Awesome game and team. Love my new Legendary Avatar!"*

*"The forging dynamic is really gripping by adding in the elements of chance and strategy needed to get the perfect forges. It draws you in and has a good gameplay balance."*

*"Had a blast playing Awesome Ajuna Avatars, being what I would call a non-gamer I was amazed by how gripped I became playing."*
